

August 26, 2015

Dear Peter,

Thank you for donation to the Commonwealth Market. I am happy to inform you that Charity Science has received a grant to support their good work due to your generous donations.

In the process, the Commonwealth Market has taken no fees, and we granted 100% of the funds received by us from your donations:

- \$5,000 donated on April 24, 2015 (ID:7611415)
- \$200 donated on April 24, 2015 (ID:7611420)

It is our mission to ensure evidence-based effective charities have the tools, services, and funding to continue their work and grow their impact, and Charity Science's help in growing funding for these charities is invaluable. Your support of Charity Science allows them to continue their good work, and we all thank you for that.

Sincerely,

Randy Carlton
Co-Founder, The Commonwealth Market

About Our Partner

At Charity Science, we want to revolutionize doing good the same way that science revolutionized medicine. We are doing this by taking all of the amazing evidence already out there and making it accessible to a wider audience than just the people who get excited by spreadsheets. In essence, we are the popular science of charity.

Charity Science has a clear and focused mission: to fundraise for GiveWell-recommended charities, experimenting with different methods for doing so. This both moves money to the world's most effective charities and provides valuable information about the prospects of these methods, which we share with the whole effective altruist community via our highly transparent reports.
